| 8:45 am – 9:30 am | The Growing Energy Demand: Data Centers, Natural Gas Supply & Pipeline Expansion
Mr. Anupam Das, NextEra (confirmed) |

Explore how rapidly growing data center demand is influencing regional natural gas supply and infrastructure planning. This session will provide insights into anticipated supply challenges, the impact of increasing energy demand, and planned pipeline projects designed to enhance system capacity and address future supply constraints.

9:30 am – 10:15 am

Keynote Address: “How to Be a Good Leader When You've Never Had One”

Mick Hunt, Keynote Speaker

10:15 am - 11:00 am

Navigating Natural Gas Market Volatility: Market Outlook, Hedging Strategies, and Reliability Planning for Utilities

Mike Enoch, Patriots Energy Group – Executive Director

This session examines current natural gas market fundamentals, emerging supply and demand trends, and the factors driving price volatility across the Southeast. Participants will learn how utilities can manage risk, improve reliability, and protect customers from extreme winter market events based on past historical events.

11:00 am – 11:15 am

Break with Associate Members / Exhibitors

Sponsored by: Southern Cathodic Protection

11:15 am - 12:00 pm

LNG: U.S. Operations and Global Market Impacts

Orlando Alvarado – VP of Commercial, Shell North America LNG

Overview of U.S. LNG production, export capacity, international demand trends, and impacts on domestic natural gas markets and utility operations.
