

AGENDA

Natural Gas Purging and Abandonment Training

July 11th and 12th

8:30 – 10:00am

Identifying Factors Affecting the Nature of Purging

- Displacement
- Dilution
- Causes of Dilution or mixing

10:00 -10:20am (Break)

10:20 – 11:45am

Identifying Factors of Isolating Equipment During Purging Operations

- Valves
- Physical Disconnection

11:45- 1:00 (Lunch)

1:00 – 2:30pm

Identifying Safety Precautions for Isolating Gas Facilities

- Preventing Accidental Ignition
- Removing a Pipeline from Service
- Recognizing and Reacting to Abnormal Operating Conditions

2:30-2:50 (Break)

2:50 – 4:00pm

Identifying Procedures Used When Purging Gas Pipelines

- Safety Precautions
- Supervision, Personal and Planning
- Displacing Combustible Gas with Air Installing Air Movers
- Open Discussion and Questions
